INTRODUCTION AND EXPLANATION OF CODES

INTRODUCTION

This report presents a variety of subcontract data collected from Department of Defense (DoD) large business firms that have received at least one award in excess of \$500,000 (\$1,000,000 for construction). Public Law (P.L.) 95-507, as amended, requires that these contractors establish a small business subcontracting program and report to DoD semiannually, using Standard Form (SF) 295, on subcontract awards.

As required by P.L. 103-355, *Federal Acquisition Streamlining Act*, the SF 295 was revised for fiscal year (FY) 1996 and reporting requirements have been changed from quarterly to semiannual. This publication has been revised to represent the changes.

Table II-1, page 8, shows the dollar amount and percent distribution of awards from DoD contractors to large businesses, small businesses, small disadvantaged businesses, Historically Black Colleges and Universities or Minority Institutions, and women owned small businesses for the first half FY 1996 and FY 1995.

Table II-2, page 9, (formerly known as Table II-5) summarizes DoD subcontracting program awards by the reporting organization's location, which may or may not be the place of performance. Only those locations for which data were reported are displayed. The U.S. Territory Total line contains the cumulative amounts for all the U.S. Territories (Puerto Rico, Guam, Virgin Islands, etc.) reported as one entity. During the current reporting period, five of the reporting organizations were located in Puerto Rico, two were located in Guam and one was located in American Samoa.

As a result of the SF 295 revised reporting requirements, this publication includes new tables to reflect the top 50 business firms in ranked order as follows:

- Table II-3, page 10, by largest dollar volume;
- Table II-4A, page 11, by percent of total awards to small businesses and dollar volume to small businesses;
- Table II-4B, page 12, by largest dollar volume to small businesses;
- Table II-5A, page 13, by percent of total awards to small disadvantaged businesses and dollar volume to small disadvantaged businesses;
- Table II-5B, page 14, by largest dollar volume to small disadvantaged businesses;

INTRODUCTION (Concluded)

Table II-6a, page 15, by percent of total awards to women owned small businesses and dollar volume to women owned small businesses; and
Table II-6B, page 16, by largest dollar volume to women owned small businesses.

Detailed information from the Army, Navy, and Defense Logistics Agency (DLA) is presented in Part III, Sections 1 through 3, pages 20 through 38. Part III listings present statistics resulting from the information submitted by the contractors and subcontractors on the SF 295.

Beginning in FY 1996, Air Force contracts requiring submission of SFs 295 are administered by Defense Contract Management Centers (DCMC) and, therefore, are included in the DLA totals and in detailed sections of this publication.

Data in this report reflect the net value of subcontracting obligations, (i.e., terminations or other downward adjustments are deducted, while modifications and other positive adjustments are treated as increases). If the negative adjustments exceed the positive adjustments, a minus sign is shown to the right of the net amount displayed. Negative adjustments to obligations may also cause the percent of awards to be greater than 100 percent.

Dollar amounts in the Summary tables, as well as the Detail tables, are given in thousands.
